DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 5/18/2007 has been entered.

Response to Amendment

2. The amendment filed on 5/18/2007 has been entered.

Interview Summary

3. On Friday July 6, 2007 and Tuesday July 10, 2007 Examiner Jeffery A. Brier telephoned Frank Cire at (714) 540-8700 to propose an Examiner's Amendment to claims 16 and 29, however, Frank Cire was not available at those times.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 16 and 29 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 16:

Claim 16 depends upon method claim 15 which claims a holding step while claim 16 claims at line 3 "said holding means", therefore, in claim 16 "said holding means" lacks antecedent basis in the claims.

Claim 29:

This independent claim at line 32 claims "the output image generated by said generation code" which does not clearly claim "the output image" generated by the generation step at line 13. Note claim 41 is similar to claim 29 and claim 41 in the last two lines has refers to the generation step in the claimed "the output image generated in the generation step".

Allowable Subject Matter

6. Claims 1, 2, 4, 5, 7, 8, 11, 15, 18, 19, 21, 22, 25, and 41-48 allowed. Claims 16 and 29 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action. The following is a statement of reasons for the indication of allowable subject matter: The prior art of record fails to teach or suggest determining each rendering position independently of the output images for each of said plurality of objects expressing the image selected in said selection step correspond to the output position on the basis of a ratio of change in

output position between the first and second positions defined by the rendering attributes of each of said plurality of objects held in said holding step compared to the image selected in the selection step.
